

FREERK

H₂-ENERGY TECHNOLOGIES

GREEN POWER GENERATION WITH HYDROGEN TECHNOLOGY

POWER GENERATION. ANYWHERE. ANYTIME.

SINCE 1964, WE HAVE BEEN PRODUCING CUSTOM POWER GENERATION SOLUTIONS SUCH AS CONTAINER SOLUTIONS, OR SOLUTIONS FOR INSTALLATION INSIDE A BUILDING. SYSTEMS WITH HYDROGEN FUEL CELLS ARE OUR CLIMATE-FRIENDLY, FORWARD-LOOKING ALTERNATIVE.

FUEL CELL EMERGENCY POWER SYSTEMS WITH UPS FUNCTIONALITY ENABLE THE UNINTERRUPTED PROTECTION OF CRITICAL INFRASTRUCTURES FOR UP TO 72 HOURS WITH ZERO EMISSIONS.

EVERYTHING FROM A SINGLE SOURCE: PLANNING, DESIGN, PROJECT MANAGEMENT, PRODUCTION, FACTORY TESTING, TRANSPORT, INSTALLATION AND COMMISSIONING INCLUDING EXTENSIVE AFTER-SALES SERVICES.

AS AN EXPERIENCED SYSTEM INTEGRATOR, WE INSTALL COMPONENTS FROM WELL-KNOWN MANUFACTURERS TO CREATE AN OPTIMIZED POWER GENERATION SOLUTION. WE RELY ON A NETWORK OF STRONG PARTNERS FOR MODERN AND MATURE FUEL CELL TECHNOLOGY.
